

Lesson Plan

NEUROHEADWAY

Neuroscience Into Education

Target Audience: KS 2 Pupils (ages: 7-11), KS 3 Pupils (ages: 11-14), KS 4 Pupils (ages: 14 – 16), KS 5 Pupils (ages: 17 – 18).

Target Audience: KS 4, KS 5

The content you provide should include at least one of each element below, plus ideas for activities that can be done in the classroom for the relevant age group. Please provide content that will flow as a one hour lesson plan (ideally made up from 3x twenty minute 'bitesize' activities) and that has an evaluation assessment at the end of the module, for teachers to complete.

1. Lesson plan text for the teacher.

The main teacher will give the teachers a sheet of paper where they should explain if they consider that gratitude is an important value in human relationships. They should cite examples of personal situations that justify their response.

Afterwards, a debate will be held, led by the principal professor, where the different opinions will be discussed.

----- At the end of the presentation of the Power Point

The principal teacher will give the teachers a sheet of paper with the following question:

1. What other feelings are accompanied by gratitude?

The principal teacher will then evaluate the correct answer and deliver the grades to the teachers.

The purpose of this assessment is to check whether teachers have been able to understand the objectives of the class.
